

12th Annual Program

March 9-10, 2017

**WVU Health Sciences Center
Charleston Division**

**CAMC
Institute**

Jointly Sponsored by:

West Virginia Geriatric Education Center

&

CAMC Health Education and Research Institute

WHAT IS AGES?

Advanced GEriiatrics Skills (AGES) program is a continuing education course that increases the competency of all health professionals who care for older adults. The course is evidenced-based and presented in a comprehensive modular format that enhances the skills and understanding of major geriatric syndromes and diseases, psycho social and ethical issues in aging, as well as, inter-professional models of care.

The overall goal of **AGES** is to promote excellence for practitioners, faculty and others who care for older adults. It extends the understanding of aging while strengthening the skills of health professionals who work with older adults.

Target Audience:

Physicians, Physician Assistants, Pharmacists, Consultant Pharmacists, Nurses, Advanced Practice Nurses, Social Workers, Physical Therapists and other health professionals

Training Materials

Each participant will receive a web link prior to the **AGES** training containing training materials.

Objectives for Presentations

At the completion of this program, the participant will be able to:

- ◆ Identify evidence-based knowledge and skills for advanced geriatric practice, including clinical practice.
- ◆ Explain the major geriatric syndromes (dementia, depression, urinary incontinence, osteoporosis, and delirium) and discuss pharmacologic and non- pharmacologic methods used to manage these problems.
- ◆ Identify psychosocial and ethical issues as they relate to the care of geriatric patients/clients and formulate an approach to these problems.
- ◆ Relate the content to the Partnership for Health in Aging competencies

Thursday, March 9, 2017
